

PRODUCT PORTFOLIO

Gyntima naturally ensures your intimate wellbeing

- Gyntima products naturally assure the biological intimate balance,
- treat and prevent vaginal discomfort,
- they prevent and treat the occurrence of intimate problems such as itching, burning and excessive discharge related to bacterial problems, vaginal dryness, hormonal changes,
- while providing optimum intimate hygiene,
- and intimate skincare.

**Gyntima suppositories ensure the reproduction of natural milk cultures responsible for the healthy vaginal environment and in addition they target different health issues depending from age or life cycle.**

The Gyntima products have no side effects; they are suitable to ensure chemical and biological intimate balance in every stage of a woman's life.

## What customers said about our products

**‘Wish I’d  
found  
it earlier’**

‘These have changed my life, for years been trapped in a cycle of discomfort, irritation, self consciousness and endless purchasing of creams to try to feel better.. so glad I found them..using them has eased my symptoms massively. Wholeheartedly recommend!’

‘Wonderful product, helped me tremendously with that annoying middle age symptoms. Keep buying it as is working wonders. Already recommended it to my friends and I’m sure they’ll enjoy it’s benefits as well.’

**‘Little Relief!  
Miracle at last’**

**‘Excellent  
product’**

‘Bought this product and was a bit sceptical at first, but they seem to do the trick. All symptoms of thrush have gone and comfort is resumed. Used all 10 at first now will use as preventive weekly.’

Best thing I have tried so far and I am so happy. After nearly destroying my relationship, BV has gone and we couldn't be happier! So easy to apply and a complete life saver. Sick of Drs constantly giving out anti biotic that kill both bad and good bacteria so this is a much better solution. !

**‘Best solution I  
ever tried’**

# Vaginal Suppositories/ Ovules

## Treatment and prevention of vaginal discomfort

# Intimate hygiene

With lactic acid and natural substances

## Gyntima®Intimate Washing gel

- ✓ Gyntima Intimate Washing Gel is gentle, refreshing and made for women's everyday intimate hygiene,
- ✓ **It helps to prevent vaginal infections.**
- ✓ The washing gel contains **pinarol** and **aloe vera**, which have antibacterial, anti-fungal and anti-inflammatory benefits
- ✓ **Lactic acid regulates pH and hydrates.**

Packaging: 200 ml

Classification: Cosmetics

## Gyntima®Children's washing gel

- ✓ Gyntima children's intimate wash is a very gentle and safe washing gel, developed specifically for intimate hygiene, for girls from age 3, when the vaginal immunity is not sufficient yet.
- ✓ **Lactic acid controls pH and acts as a hydrating factor. Bisabolol together with allantoin contribute to skin regeneration, sage extract provides protection.**

Packaging: 100 ml

Classification: Cosmetics

## Gyntima®Intimate foam

- ✓ Gyntima intimate foam is an effective, refreshing and mild wash **with optimal pH**, designed for everyday female intimate hygiene.
- ✓ The foam helps to prevent vaginal infections.
- ✓ **The foam is enhanced by Aloe vera and sage extract** for their antibacterial and antimycotic effects and pleasant herbal scent.

Packaging: 150 ml

Classification: Cosmetics

## Gyntima Lubricating gel

- ✓ Helps to eliminate physiological problems arising from insufficient lubrication, increase lubricity and reduce the risk of occurrence of minor injuries to the vaginal mucosa.
- ✓ Antimicrobial substances limit the potential development of bacterial and yeast infections, panthenol soothes irritated areas.
- ✓ Apply the gel to reduce unpleasant sensations during sexual intercourse, to enhance the lubrication of condoms and to facilitate easier insertion of sanitary tampons or suppositories.

Packaging: 50 ml

Classification: Medical device

# Intimate Skincare

## Gyntima Whitening cream

The Gyntima Whitening cream is specially developed for the lightening of intimate body parts. **The combination of biotechnology peptides and plant substances gently brightens and nourishes the deeply pigmented genital and anal areas.**

One of the main active ingredients is the biotechnologically produced peptide, the oligopeptide-34. In vitro studies indicated that oligopeptide-34 has more intense pigment whitening activity as other cosmetic ingredients, e.g. vitamin C and arbutin.

The Boerhavia diffusa extract comes from a plant, native to the Himalayas, that is rich in boeravinone, a pigment whitening active ingredient. In vitro studies have shown, that only after nine days, the tyrosinase enzyme required for melanin formation was reduced by 55%.

Packaging: 50 ml

Classification: Cosmetics

## Gyntima® Lifting cream

Fytofontana Gyntima Lifting Cream is designed for intimate care. **The unique composition of biotechnological peptides and active substances of plant origin containing phytohormones, gently regenerates, rejuvenates and strengthens the skin of the intimate area.**

Due to the high amount of active ingredients, with regular use, the skin becomes soft, smooth and flexible.

Pueraria Mirifica , the extract of this plant is known for its beneficial effects: strengthens and improves the overall appearance of the skin.

Acetyl Tetrapeptide -2, creates functional elastin, restructures the skin  
-Lifting effect

Packaging: 50 ml

Classification: Cosmetics

## Product

## Description

## Use

### Gyntima® Stretch Mark Emulsion

Regenerating emulsion Gyntima Stretch mark contains a unique combination of biotechnological peptides. Their uniqueness lies in the fact that they not only help in prevention, but can remove already formed stretch marks in the process until they are pink to purple color.

**Acetyl Tripeptide-30 Citrulline, Pentapeptide-18-** effectively cope with different mechanisms causing stretch marks: protecting the connective tissue from degradation, helping to reconstruct the extra cellular matrix) components, heals wounds and reduces skin tightness.

**High quality hyaluronic acid in two molecular sizes.** Hyaluronic acid with larger molecules creates a fine film on the surface of skin to help maintain skin moisture. Hyaluronic acid with smaller molecules is able to penetrate into deeper skin layers, where binds and locks water molecules. Active ingredients moisturize the skin, nourish collagen fibers and treat the surface and deeper layers of the skin. They increase skin elasticity and improve its tone.

**Packaging:** 100 ml

**Classification:** Cosmetics

**Use:**

Apply regularly on the affected parts.  
Especially recommended during pregnancy.
